

PROJECT DESIGN PHASE-1

SOLUTION ARCHITECTURE

Date	05 October 2022
Team ID	PNT2022TMID22991
Project Name	INVENTORY MANAGEMENT SYSTEM FOR RETAILERS

Solution Architecture

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

1. Find the best tech solution to solve existing business problems.
2. Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
3. Define features, development phases, and solution requirements.
4. Provide specifications according to which the solution is defined, managed, and delivered.
